

Globalwarming Awareness2007

A document that will raise awareness in 2007.

Is globalwarming a real problem or is it a hoax, designed to spread fear, to expand economies worldwide ?

Is it a scheme that Bush thought up and had executed by his puppet Al Gore ?

Or is it just a stupid keyphrase used in another global seo contest ?

Let's go for the latter, will this document change anything ?

Well maybe, just maybe, it will allow me to win it.

Lets wait and see what happens when the bots will come by ☺
